SERVICE AGREEMENT  
**Document Duplication Services for Central Offices**  
Revised: April 2023

## OVERVIEW

This document describes the agreement between the Editorial, Graphics & Publishing Services (EGPS) unit of the Department of Materials Management and the central offices of MCPS, including the Board. It pertains to the high-volume document duplicating services and resources provided by EGPS to the central offices located at Carver Educational Services Center and 45 West Gude Drive. The central offices are considered customers of EGPS. These customers submit approximately 400 separate work orders annually for document duplication and uses walk-up copier machines to produce more than a million copies annually.

## STATEMENT OF WORK

EGPS provides central duplication and delivery to the central offices as well as access to walk-up copiers made available for central office staff to operate on site.

Within 24 hours of receiving a work order from a central office (via email or hard-copy materials), the EGPS Customer Service representative will send a return email confirming estimated delivery time. EGPS will package, label, and deliver completed jobs to the customer. Turnaround time ranges from 24 to 72 hours, based on the scope of the work order and demand for service.

EGPS maintains walk-up copiers in various facility locations (see attachment) to meet the immediate needs of central offices staff. Staff members may operate these copiers themselves.

## TERMS

- Customers will provide the document file as either a PDF or hard-copy masters.
- Customers will complete the work order with job specifications, contact information, and timeframe needed.
- EGPS will give a one-hour training event to customers that operate the walk-up copiers.

## FUNDING

Central funding pays for document-duplication services for central offices. These costs are categorized and reported within the major office categories.
