

MCPS

DIVISION OF
SUSTAINABILITY
& COMPLIANCE-
SERT PROGRAM

DID YOU KNOW?

MCPS now recycles single-use batteries? Single-use batteries contain material that is recyclable. We also continue to recycle rechargeable batteries. Please place either item in a bag inside a box and Pony to John Meyer at 45 West Gude Dr., Suite 4000, Rockville, MD 20850

The Elmer's Glue Crew Recycling Program encourages classrooms nationwide to actively learn about recycling by collecting empty Elmer's glue bottles and glue sticks. Please put them in a small box and Pony to John Meyer at 45 West Gude Dr., Suite 4000, Rockville, MD 20850

Every year, hundreds of schools across the nation compete against each other to see who can recycle the most plastic film. In addition to providing a better understanding and appreciation for the importance of recycling, Trex® will happily donate a high-performance composite bench to the winning school and bestow honorary awards to every school that participates.

The challenge begins each year on America Recycles Day, November 15, and lasts until April 15.
