Tips for recycling cardboard tray

- Students should tap cardboard trays to remove any food wrapping or left over food into the trash bin
- Clean trays or trays with minimal food residue can be recycled
- Stack the cardboard trays as you would normally stack the white polystyrene trays or place the cardboard tray into the blue paper recycling bin
- If the cardboard tray has a lot of food contamination, then it should be thrown away as trash
- After lunch, stacks of cardboard trays should be taken to the exterior paper/cardboard recycling dumpster
