

Walter Johnson High School
Stadium Turf Field Replacement Project
June 2020
UPDATE

Schedule

The contractor completed the installation of the artificial turf field on 3-27-2020. This date also sets the date of substantial completion of the installation.

Since March the contractor has conducted monthly maintenance on the field and will continue to do so until November 2020.

G-Max testing occurred at the completion of the project and one additional G-max test will occur in August 2020.

Test results and information on maintenance of all fields can be found on MCPS's Athletics' web site under Artificial Turf Fields Program: [2019-2020 MCPS Artificial Turf Maintenance Log](#)

Removal and Recycling of the artificial turf field

Infill: Removed infill inclusive of crumb rubber and sand are scheduled for installation over the summer of 2020 at an undisclosed site. The contractor will provide all appropriate documentation once the material is installed. Please note due to the Corona Virus Pandemic the installation has been delayed and the contractor will inform MCPS the general installation date once it has been established.

Synthetic turf carpet: Burke Construction has confirmed that Target Technologies International Inc. (TTII) have recycled the artificial carpet. We have not received all of the completed Chain of Custody (CoC) forms at this time, once the CoC is provided we will make it available to the community.
