[Click here for online catalog.](#)

**Come with your child to shop the Book Fair on Thursday, November 14th from 6:00-7:30 pm and join us for Literacy Night!**

## Eureka Math

Students will learn to identify two-dimensional shapes first by their attributes (number of sides and corners) and then by their name.

### Shape Name and its Attributes

**Rectangle:** A shape with 4 straight sides and 4 corners.

**Square** (special rectangle): A shape with 4 sides the same length and 4 corners.

**Triangle:** A shape with 3 straight sides and 3 corners.

**Circle:** This shape has no sides or corners. It is round.

**Oval:** This shape has no sides or corners; this looks like a circle but it is squished.

## Pre-K & PEP (page 2)

### CKLA Reading

Your child probably already likes to talk about his/her family. At school, we will be learning all about families and how they love us and help us grow and change! We will learn all kinds of words to describe families. We will also be talking about what words are, practicing rhyming, drawing and painting, and playing musical instruments.

### Pre-Writing Strokes for Letter Formation

Up, and around

Touch, pull down

Touch, push over

Nursery rhymes are a fun way for children to learn the rhythm and sounds of language. Your child may come home singing and doing the motions for “Rain, Rain Go Away,” and “Five Little Ducks.” The words to “Rain, Rain Go Away” are on this back of this letter—have your child recite the rhyme and talk with your child about the words in the song that rhyme (away, day, play). You could also share your own favorite nursery rhymes with your child.

Your child is doing lots of activities to develop fine motor skills. Have your child practice at home by drawing with crayons and thick markers. Encourage your child to draw pictures of his or her family or have your child illustrate his or her own daily schedule.
