

Chromebook and Google Education **Oakland Terrace Student Expectations**

General Information

- All students in MCPS will use a Google Education account to support and enhance their learning this year.
- To support these accounts, 3rd, 4th and 5th graders will also have access to Chromebooks from the MCPS Technology Initiative in their classrooms
- The Chromebooks will be used for PARCC Assessment later on in the school year
- Google Apps for Education accounts and the Chromebooks are for EDUCATIONAL USES ONLY. This includes all apps, websites, email and more.
 - Teachers can monitor all student activity on their Google accounts and Chromebooks

Student Email

- All students in MCPS now have access to a Google education email account
- Students cannot send or receive emails from any account other than MCPS registered Google education accounts (Students also should not email or receive emails from parents who work for MCPS)
- All emails can be monitored by staff at any time
- MCPS staff can “audit” student accounts (including email) to receive a full history of the student’s account if it is suspected that a student is using their account inappropriately

Google Apps

- Staff will guide students in the use of apps for educational purposes only
 - This means that students are NOT allowed to add apps to their Google accounts without the supervision of a staff member
- Staff will preview all apps before using them with students

Consequences

- First warning - review of expectations with staff member or principal
- Second warning - Parent conference, possible loss of computer privileges
